Expanding Information Access for Incarcerated People is an initiative based in San Francisco Public Library's (SFPL) Jail and Reentry Services program, in coordination with the American Library Association (ALA). How libraries are providing services for people impacted by incarceration

"It is not only the books that I appreciate; more important to me is the appreciation that I have for you that you would even think of, or care about, other people that are incarcerated. To many people, except for family or close friends, prisoners are out-of-sight, out-of-mind."
